[Report Suspicious](#)

I refer to the Development Application COM/2025/157 for 60 Dutton Street Coolangatta Qld 4225.

I refer to p.7 of the geleon waste management plan and want to comment on the waste collection requirements, servicing and collection vehicle access.

A vehicle parked in front of the kerbside collection point (refer to fig.4.2) may cause disruption to the servicing of the wheely bins.

The wheely bins may then eventually be placed on the solid white line that defines the edge of the roadway.

I do not know if this is acceptable to the GCCC but an appropriate traffic sign at the kerbside collection point may control vehicle parking.

Yours faithfully

Edward Rhodes

Property owner

58 Dutton Street

Coolangatta
