Notes for filling out this form	
Use of this form	Use this form to provide Council with details of a development application to assist Council in the calculation of infrastructure charges.
Rate adjustments in areas not fully serviced by Gold Coast Water	Areas in Council's local government area which are not planned to be serviced by water supply or sewerage are identified in section 4.5.1 of the LGIP. In these areas the base charge will be reduced by the percentage of the water or sewerage component of the base charge depending on which service is not planned to be provided. If the development is in an area: a. not planned to be serviced by water supply the base charge will be reduced by 10.9%. b. not planned to be serviced by sewerage the base charge will be reduced by 33.6%not planned to be serviced by water supply, the assessable demand rate will be reduced by 10.9%
Charging categories	Use the column "City Plan use definitions" or "2003 Scheme use definitions" (as applicable) on the right of each page to determine the appropriate charging category.
Common areas	If a development includes an area which is common to two or more charging categories and no clear breakdown of these common areas attributable to a particular charging category is provided, the assessable demand for the common area will be based on the charging category with the highest charge rate. At Council's absolute discretion, if it can be clearly demonstrated that specific common areas apply to only one charging category then charges for that common area will be determined on the charge rates for that charging category.
Credits for existing lawfully established use	Credits will be provided in accordance with section 3 (credits) of the City's charges resolution. Enter the number of existing dwellings/units or the gross floor area of any existing use against the appropriate charging category. Use the "included land use" column on the right as a guide to determine the appropriate charging category to use. Evidence of the prior lawfully established use must be provided.
Gross floor area (GFA)	Means the total floor area of all storeys of a building (measured from the outside of the external walls or the centre of a common wall), other than areas used for the following: a. building services, plant and equipment b. access between levels c. ground floor public lobby d. a mall e. the parking, loading and manoeuvring of motor vehicles f. unenclosed private balconies whether roofed or not.
Not-for-profit organisations	If you are a not-for-profit community group, you may be entitled to a rebate on the charges you must pay. You will need to fill out the "application for infrastructure offset agreement, infrastructure payment deferral or not-for-profit rebate request" form contained in your application kit. Please note that assessment of "not-for-profit" applications will not be conducted by the City when assessing infrastructure charges.
Exemption under section 5 of the charges resolution	Section 5 of the charges resolution details exemptions that may be available. If an exemption is sought, please attach relevant evidence.
