Attention: Design Engineer

Dear Sir,

84-160 CHRISTENSEN ROAD SOUTH, STAPYLTON - STAGE 1

We have been engaged as Consulting Electrical Engineer for the design of electricity reticulation and street lighting on the above subdivision. Details of the subdivision are contained on the *Subdivision Details Sheet* enclosed.

A copy of our final Works Plan is enclosed herewith for your approval, subject to Energex's approval also. We would appreciate it if you would advise us as follows:

- i. Approval of **alignments** specified on the enclosed plan, for poles, street lighting columns and underground cables;
- ii. approval to use "as constructed" **levels** as permanent levels;
- iii. formal approval of the works proposed on Council-controlled road, as required by the *Electricity Act 1994*, S.102;
- iv. formal approval of the **street lighting design**;
- v. confirmation that the electricity reticulation and street lighting, as designed, satisfies the requirements of Council's development approval for this subdivision.

Thank you for this assistance.

Yours faithfully,
ROBIN RUSSELL & ASSOCIATES PTY. LTD.
