Good morning,
I wish to submit that development com/2019/82 has been inadequately signed. This development will have a large impact on residents in the area yet no one seems to know it is even proposed. There is a reason for this. The signage that is required announcing the proposed development is practically hidden. There is one sign down Courtney road which only the local residents would be aware of and a second sign up a gravel road off to the right of the end of Gordon Drive, Upper Coomera. This is closed off road with the proposal sign in a place no person will see it. I have attached photos to show this. I feel this is grossly inadequate given the impact such a large development will have on the local residents.

Further the habitat of the local Koala and Goanna has been greatly reduced in this area already. Further reducing this habitat is undoubtedly leading to the extinction of these creatures in SE Qld. I regularly see Goanna and various native wildlife when I walk this area daily. I fear for future generations who will not be able to experience Australia's wildlife like past generations.
Regards
David Hanlen
5 O'connor place, upper Coomera, 4209.
