Decision notice— change application approval including amended suite of development conditions for OPW/2021/1255

(Given under section 83(1) of the *Planning Act 2016*)

The Council of the City of Gold Coast received your change application made under section 78 of the *Planning Act 2016* on 11 April 2023 for the development approval dated 27 October 2021.

Date of decision notice: 13 September 2023

Applicant details

Applicant name: Fpi Queensland Pty Ltd
Applicant contact details: C/- Gassman Development Perspectives
PO BOX 392
BEENLEIGH QLD 4207

Application details

Application number: MIN/2023/161
Approval sought: Minor change to Operational Works – Infrastructure (civil works)
Details of the change: Amended civil plans to align the civil services with the latest sub-staging boundaries applied for Vantage Stage 2 (being split into 2A and 2B) per application number MIN/2023/142 (ROL minor change). This includes removal of the cul-de-sac in Stage 2B to facilitate future stage 3
Original Application number: OPW/2021/1255
Details of original decision: Operational works – Infrastructure (civil works)
Date of original decision: 27 October 2021

Location details

Street address: Lot 504 Homestead Drive, Stapylton Qld 4207
Real property description: BAL Lot 504 SP329485

Decision

Date of decision: 13 September 2023
Decision details: Under Delegated Authority, the Supervisor Operational Works has resolved to approve the development application in full with conditions.

Affected Entity(s) for the application

Not applicable – no part of the application required referral to an affected entity.

Details of the approval

Development permit: Operational work - Infrastructure (civil works)

Conditions

New and/or amended conditions of approval for a development permit for operational works for

Operational works – Infrastructure (civil works) are enclosed in this notice.

A full suite of development conditions for the development approval is also enclosed in this notice.

Approved plans and drawings

Approved amended plans and drawings are highlighted in the attached amended conditions imposed by Council as the Assessment manager.

Appeal rights

Applicant	You have appeal rights in relation to this decision. An appeal may be made against a responsible entity's decision for a change application. An appeal must be started within 20 business days after this notice is given to you. An appeal may be made to the Planning and Environment Court or, for certain matters which are identified in section 1(2) of Schedule 1 of the <i>Planning Act 2016</i>, to a development tribunal. An appeal is started by lodging a notice of appeal with the registrar of the Planning and Environment Court or a development tribunal, as applicable. The notice of appeal must be in the approved form, succinctly state the grounds of the appeal and be accompanied by the required fee. An appellant to the Planning and Environment Court must give a copy of the notice of appeal, within 10 business days after the appeal is started, to the persons identified in section 230(3) of the <i>Planning Act 2016</i>. A person who is appealing to the Planning and Environment Court must comply with the rules of the court that apply to the appeal. An extract of Chapter 6, Part 1 and Schedule 1 of the <i>Planning Act 2016</i> is attached to this notice, which sets out further information about the appeal rights.
-----------	--

For further information please contact Planning Assessment on p: 07 5582 8927 or via email mail@goldcoast.qld.gov.au who will be pleased to assist.

Enc:

Conditions imposed by Council as Assessment manager

Attach:

New and/or amended conditions imposed by Council as the Responsible Entity

General																																																																					
1	Timing a All conditions of this development approval must be complied with at no cost to Council at all times, unless otherwise stated in another condition. b Where the timing in a condition is prior to commencement of the use and a Building Format Plan is lodged for approval, the timing in the condition changes from being prior to commencement of the use to being prior to the earlier of the commencement of the use and approval of the plan of subdivision. This timing requirement prevails despite any inconsistency with the timing requirement in another condition																																																																				
2	Approved drawings Undertake and maintain the development generally in accordance with the following drawings including as amended in red by the Council: <table><tr><th colspan="5">Operational Works</th></tr><tr><th>Drawing Title</th><th>Author</th><th>Date</th><th>Drawing No.</th><th>Ver</th></tr><tr><td>DRAWING INDEX AND LOCALITY PLAN</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>SEPTEMBER 2023</td><td>5941 ENG OPW2 001</td><td>M</td></tr><tr><td>GENERAL NOTES SHEET 1 OF 2</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>25/11/21</td><td>5941 ENG OPW2 002</td><td>B</td></tr><tr><td>GENERAL NOTES SHEET 2 OF 2</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>25/11/21</td><td>5941 ENG OPW2 003</td><td>B</td></tr><tr><td>LEGEND</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>25/11/21</td><td>5941 ENG OPW2 004</td><td>B</td></tr><tr><td>KEY PLAN LAYOUT</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>06/04/23</td><td>5941 ENG OPW2 005</td><td>E</td></tr><tr><td>EXISTING SURFACE AND FEATURES PLAN SHEET 1 OF 8</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>06/04/23</td><td>5941 ENG OPW2 010</td><td>C</td></tr><tr><td>EXISTING SURFACE AND FEATURES PLAN SHEET 2 OF 8</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>06/04/23</td><td>5941 ENG OPW2 011</td><td>B</td></tr><tr><td>EXISTING SURFACE AND FEATURES PLAN SHEET 3 OF 8</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>06/04/23</td><td>5941 ENG OPW2 012</td><td>B</td></tr><tr><td>EXISTING SURFACE AND FEATURES PLAN SHEET 4 OF 8</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>06/04/23</td><td>5941 ENG OPW2 013</td><td>B</td></tr><tr><td>EXISTING SURFACE AND FEATURES PLAN SHEET 5 OF 8</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>06/04/23</td><td>5941 ENG OPW2 014</td><td>C</td></tr><tr><td>EXISTING SURFACE AND FEATURES PLAN SHEET 6 OF 8</td><td>GASSMAN DEVELOPMENT PERSPECTIVES</td><td>06/04/23</td><td>5941 ENG OPW2 015</td><td>C</td></tr></table>				Operational Works					Drawing Title	Author	Date	Drawing No.	Ver	DRAWING INDEX AND LOCALITY PLAN	GASSMAN DEVELOPMENT PERSPECTIVES	SEPTEMBER 2023	5941 ENG OPW2 001	M	GENERAL NOTES SHEET 1 OF 2	GASSMAN DEVELOPMENT PERSPECTIVES	25/11/21	5941 ENG OPW2 002	B	GENERAL NOTES SHEET 2 OF 2	GASSMAN DEVELOPMENT PERSPECTIVES	25/11/21	5941 ENG OPW2 003	B	LEGEND	GASSMAN DEVELOPMENT PERSPECTIVES	25/11/21	5941 ENG OPW2 004	B	KEY PLAN LAYOUT	GASSMAN DEVELOPMENT PERSPECTIVES	06/04/23	5941 ENG OPW2 005	E	EXISTING SURFACE AND FEATURES PLAN SHEET 1 OF 8	GASSMAN DEVELOPMENT PERSPECTIVES	06/04/23	5941 ENG OPW2 010	C	EXISTING SURFACE AND FEATURES PLAN SHEET 2 OF 8	GASSMAN DEVELOPMENT PERSPECTIVES	06/04/23	5941 ENG OPW2 011	B	EXISTING SURFACE AND FEATURES PLAN SHEET 3 OF 8	GASSMAN DEVELOPMENT PERSPECTIVES	06/04/23	5941 ENG OPW2 012	B	EXISTING SURFACE AND FEATURES PLAN SHEET 4 OF 8	GASSMAN DEVELOPMENT PERSPECTIVES	06/04/23	5941 ENG OPW2 013	B	EXISTING SURFACE AND FEATURES PLAN SHEET 5 OF 8	GASSMAN DEVELOPMENT PERSPECTIVES	06/04/23	5941 ENG OPW2 014	C	EXISTING SURFACE AND FEATURES PLAN SHEET 6 OF 8	GASSMAN DEVELOPMENT PERSPECTIVES	06/04/23	5941 ENG OPW2 015	C

	The conditions of this approval are to be read in conjunction with the attached stamped approved drawings. Where a conflict occurs between the conditions of this approval and the stamped approved drawings, the conditions of this approval shall take precedence.																																								
3	Deleted																																								
4	When the approval lapses if works is not completed This approval will lapse if the works is not completed by 26 October 2023, in accordance with section 88 of the Planning Act 2016.																																								
Engineering																																									
5	Rectification of Council’s infrastructure a Rectify any damage caused to Council infrastructure (including kerb, channelling, service pits, footpaths and water and sewer reticulation networks) prior to an ‘on maintenance’ inspection, at no cost to Council. b Maintain the rectified Council infrastructure at no cost to Council until the asset is accepted “off maintenance” by the City in accordance with the procedures in City Plan Policy SC6.11 – Land development guidelines, Section 6 – Water supply and sewerage reticulation standards, Section 7 – Procedures, Section 8.5 – As-constructed requirements, Section 9 - Specifications and Section 10 – Standard drawings.																																								
6	Footpaths and kerb ramps a Construct and maintain the footpath identified in the approved drawings condition at no																																								

	cost to Council until the asset is accepted “off maintenance” by the City in accordance with the procedures in City Planning Policy SC6.11 – Land development guidelines, sections 2 Transport network standards, 7 Procedures, 8.5 As-constructed requirements, 9 Specifications and 10 Standard drawings. b Ensure that there is a minimum 300mm circumferential separation between any footpath and the outer edge of existing/new power poles. Fill the space with compacted cold-mix asphalt to a minimum depth of 50mm. c The kerb ramps shall be located closer to the intersection and constructed as per IPWEA standard drawings (RS-090 to RS-094).
7	Roadworks Construct and maintain the roadworks identified in the approved drawings condition at no cost to Council until the asset is accepted “off maintenance” by the City in accordance with the procedures in City Planning Policy SC6.11 – Land development guidelines, sections 2 Transport network standards, 7 Procedures, 8.5 As-constructed requirements, 9 Specifications & 10 Standard drawings.
8	Earthworks a Construct the earthworks identified in the approved drawings condition at no cost to Council in accordance with the standards and procedures in City Planning Policy SC6.11 – Land development guidelines, sections 3 Change to Ground level standards, 7 Procedures, 8.5 As-constructed requirements and 9 Specifications and 10 Standard drawings. b Maintain the earthworks identified above at no cost to Council at all times.
Stormwater Drainage	
9	Overland flow paths and hydraulic alterations a Leave unaltered the overland flow paths on the site, such that the characteristics of existing overland flows on other properties remain uninhibited and unchanged. b The development must not: - i Increase peak flow rates downstream from the site - ii Increase flood levels external to the site - iii Increase duration of inundation external to the site that could cause loss or damage
10	Stormwater drainage / Legal point of discharge Construct and maintain the stormwater drainage system identified in the approved drawings condition at no cost to Council until the asset is accepted “off maintenance” by the City in accordance with the procedures in City Planning Policy SC6.11 – Land development guidelines, sections 4 Stormwater drainage and water sensitive urban design standards, 7 Procedures, 8.5 As-constructed requirements, 9 Specifications and 10 Standard drawings.
Sewer and Water Works	
11	Sewer reticulation Construct and maintain the sewer reticulation system identified in the approved drawings condition at no cost to Council until the asset is accepted “off maintenance” by the City in accordance with the procedures in City Plan Policy SC6.11 – Land development guidelines, and include in particular: - i The sizing of the sewer reticulation system must be in accordance with the WSAA Sewerage Code of Australia – SEQ Service Providers Edition - ii Remove / seal / cap redundant sewer property services. <i>Note:</i>

	An “Application Work on the City’s infrastructure” form is required for the above works. The development’s sewerage connection must be completed and approved by Council prior to an application for a Pre-start meeting for the approved water connection.																								
12	Water reticulation Construct and maintain the water reticulation system identified in the approved drawings condition at no cost to Council until the asset is accepted “off maintenance” by the City in accordance with the procedures in City Plan Policy SC6.11 – Land development guidelines, and include in particular: - i Conduits are required to be installed to service the proposed development via trenchless technology (open cutting of the road is not permitted) to connect to Council’s potable water supply network. - ii Remove redundant water meters / connections. A connection application is required for these works. - iii Water meters must be in accordance with the Metering Technical Specifications and the Water and Sewerage Connections Policy. - iv The maintenance period for these works is twelve (12) months. The maintenance bond requirements to be followed as per the Land Development Guidelines. Notes: - v An “Application Work on the City’s infrastructure” form is required for the above works. - vi The development’s sewerage connection must be completed and approved by Council prior to an application for a Pre-start meeting for the approved water connection.

term factor of safety greater than or equal to 1.5 against geotechnical failure.

Geotechnical

Certified document	Certification date	Expert discipline	Requesting Council Section
Geotech certification for level 1	Upon practical completion of works.	RPEQ	Contributed Assets

The certification is to confirm:

- Earthworks have been carried out in accordance with AS 3798-2007: *Guidelines on earthworks for commercial and residential developments*.
- Supervision of bulk earthworks was completed to Level 1 and the frequency of field density testing must be in accordance with Table 8.1 of AS 3798-2007.
- Fill materials were placed in layers, watered if required and compacted to achieve the specified density ratio as specified in Table 5.1 - Minimum Relative Compaction of AS 3798-2007.

Water and Waste

Certified document	Certification date	Plan/ Drawing	Expert discipline	Requesting Council Section
Requirements of Council Water and Sewerage acceptance testing guideline	Prior to a request to accept on maintenance Or connect to existing mains and the use of the connection		Registered Professional Engineer of Queensland (RPEQ)	Water and Waste
A Survey Plan with the required easements shown on the listed plan over the on-lot water arrangement / sewer	Prior to a request is made to Council to approve the plan of subdivision Or Prior to commence of the use		Registered Surveyor	Development Compliance Section

The certification is to confirm:

- Constructed works comply with necessary standards and confirm level and location details.
- Installed components meet specifications and standards for materials and design and installation specifications and acceptance testing requirements.
- Easements are correctly located over the infrastructure and meet the requirements specified in the SEQ Water Supply and Sewerage Design and Construction Code for sewerage infrastructure.

15	Supervision of works During construction of any works the following professionals must be appointed to supervise the below described actions: <table border="1" data-bbox="261 320 1390 857"> <tr> <th colspan="2" data-bbox="261 320 1390 367">All works approved by this permit</th></tr> <tr> <th data-bbox="261 367 647 479">Expertise required of the suitably qualified professional</th><th data-bbox="647 367 1390 479">Actions to be overseen by the professional</th></tr> <tr> <td data-bbox="261 479 647 591">Registered Professional Engineer of Queensland (RPEQ)</td><td data-bbox="647 479 1390 591">All supply, installation, construction, testing and commissioning of works</td></tr> <tr> <th colspan="2" data-bbox="261 591 1390 636">Operational works</th></tr> <tr> <th data-bbox="261 636 647 748">Expertise required of the suitably qualified professional</th><th data-bbox="647 636 1390 748">Actions to be overseen by the professional</th></tr> <tr> <td data-bbox="261 748 647 857">Registered Professional Engineer of Queensland (RPEQ)</td><td data-bbox="647 748 1390 857">Bulk earthworks inspected to level 1 in accordance with AS3798-2007</td></tr> </table>	All works approved by this permit		Expertise required of the suitably qualified professional	Actions to be overseen by the professional	Registered Professional Engineer of Queensland (RPEQ)	All supply, installation, construction, testing and commissioning of works	Operational works		Expertise required of the suitably qualified professional	Actions to be overseen by the professional	Registered Professional Engineer of Queensland (RPEQ)	Bulk earthworks inspected to level 1 in accordance with AS3798-2007
All works approved by this permit

Registered Professional Engineer of Queensland (RPEQ)	All supply, installation, construction, testing and commissioning of works												
Operational works													
Expertise required of the suitably qualified professional	Actions to be overseen by the professional												
Registered Professional Engineer of Queensland (RPEQ)	Bulk earthworks inspected to level 1 in accordance with AS3798-2007												
16	Availability of approved plans, drawings and reports Retain a copy of this decision notice and stamped approved plans, drawings and reports on site at all times during construction. Any contractors undertaking approved work (including tree removal or relocations) must be directly provided with a copy of these conditions and instructed as to the need to comply with them.												
17	Haulage access/site management plan - a Prepare and implement a Haulage access/site management plan generally in accordance with the Change to ground level and creation of new waterways code of the City Plan prior to any works commencing. - b The Haulage access/site management plan must be prepared by a suitably qualified professional and include in particular. - i Address the provision of vehicle barrier(s) along the frontages of the land to ensure vehicles use approved crossovers - ii Provide Loading/unloading operations. - iii Address nuisance from dust, noise, vibration, smoke and material tracked onto public roads as a result of hauling and filling operations and how complaints will be addressed. - iv Identify measures and work practices to ensure the site will be maintained in a clean and tidy state at all times including collection, storage and disposal of all waste materials. - v Identify measures and work practices to ensure non- recyclable debris transported from the site is disposed of at an approved waste facility. Combustion of any material is not permitted on the subject site without prior approval of Council. - vi Identify measures and work procedures to ensure gravel access areas to the site, transport dust covers and shake (hose) down areas are in place to control both on-site dust nuisance and contamination of external properties, roadways and receiving waterways. - c Comply with the Haulage access/site management plan during all construction works at no cost to Council.												
18	Transport of soil/fill/excavated material During the transportation of soil and other fill/excavated material:												

	- a All trucks hauling soil, or fill/excavated material must have their loads secure and covered. - b Any spillage that falls from the trucks or their wheels must be collected and removed from the site and streets along which the trucks travel on a daily basis. - c Prior to vehicles exiting the site, measures must be taken to remove the soil from the wheels of the vehicles to prevent soil and mud being deposited on public roads.
19	Earthworks as-constructed data Prepare and submit for approval as-constructed data for the constructed earthworks generally in accordance with City Plan Policy SC6.11 – Land development guidelines, section 8.5 prior to request for practical completion of the works/ prior to acceptance of On maintenance.
20	Erosion and sediment control a. Implement the erosion, sediment and dust control measures identified in the approved drawings at no cost to Council. b. Undertake works generally in accordance with the operational works approval and include in particular: i. Sediment controls must be maintained and amended as necessary to ensure that the measures implemented conform to the Construction Phase stormwater management design objectives of the State Planning Policy 2017 (Appendix 2 Table A). ii. Erosion, sediment and dust control measures must be implemented in accordance with the approved plan / drawings and the Best Practice Erosion & Sediment Control (IECA Australasia, November 2008). iii. Sediment control structures (e.g. sediment fence) must be placed at the base of all materials imported on-site to mitigate any sediment runoff. iv. A perimeter bund and/or diversion drain must be constructed around the disturbed area to prevent any outside clean stormwater from mixing with polluted / contaminated stormwater. v. All polluted / contaminated water from the site, including dewatering discharge, must be treated to achieve the water quality objectives in Table 8.2.1 of the Queensland Water Quality Guidelines (DERM, September 2009) prior to discharging from the site. - c Inspections for erosion and sediment control measures are to occur in accordance with the compliance procedures in City Planning Policy SC6.11 – Land development guidelines, Section 4.5.17.1.2 – Compliance.

21 Pre-start inspection

Arrange a pre-start inspection prior to the commencement of works to complete the requirements identified in SC.6.11 City Plan Policy – Land development guidelines for the following:

Purpose	Council contact
Review and discuss this Operational works – infrastructure approval.	Contributed Assets (07) 5582 9034
Discuss Water and Waste and Council approval requirements and expectations through the construction phase	Contributed Assets (07) 5582 9034
Prior to requesting a Pre-start meeting, provide “for construction issue design drawings”, including amendments, following potholing undertaken as part of the preliminary site works. All design changes must be included in the drawing set. <i>Note:</i> <i>Changes made to the drawings may necessitate the submission of a Minor or Other Change development application, in accordance with the Planning Act 2016.</i>	inspections@goldcoast.qld.gov.au

Copies of applicable material including this decision notice and stamped approved plans, drawings and reports are to be available for the meeting and kept on site during construction.

22 Hold point inspection

Arrange a hold point inspection to complete the requirements identified in SC.6.11 City Plan Policy – Land development guidelines/Landscape work code of the City Plan for the following:

Purpose	Hold Point	Council contact
Confirm works have been undertaken in accordance with the operational works approval and associated hold point requirements identified in SC6.11 City Plan Policy – Land development guidelines	As indicated in SC6.11 City Plan Policy – Land development guidelines	Contributed Assets (07) 5582 9034

Copies of applicable material including this decision notice and stamped approved plans, drawings and reports are to be available for the meeting and kept on site during construction.

23 On maintenance

Arrange an on maintenance meeting to complete the requirements identified in SC.6.11 City Plan Policy – Land development guidelines for the following:

Purpose	Hold Point	Council contact
Confirm completion of works have been undertaken in accordance with this approval	Prior to commencement of the on maintenance period	Contributed Assets 07 5582 9034

Copies of applicable material including this decision notice and stamped approved plans, drawings and reports are to be available for the meeting and kept on site during construction.

24	Off maintenance Arrange an off maintenance meeting to complete the requirements identified in SC.6.11 City Plan Policy – Land development guidelines for the following: <table><tr><th>Purpose</th><th>Hold Point</th><th>Council contact</th></tr><tr><td>Confirmation works have been undertaken in accordance with the Operational works, Works for infrastructure approval</td><td>Prior to Asset handover / conclusion of on maintenance period</td><td>Contributed Assets (07) 5582 9034</td></tr></table> Copies of applicable material including this decision notice and stamped approved plans, drawings and reports are to be available for the meeting and kept on site during construction.	Purpose	Hold Point	Council contact	Confirmation works have been undertaken in accordance with the Operational works, Works for infrastructure approval	Prior to Asset handover / conclusion of on maintenance period	Contributed Assets (07) 5582 9034
Purpose	Hold Point	Council contact					
Confirmation works have been undertaken in accordance with the Operational works, Works for infrastructure approval	Prior to Asset handover / conclusion of on maintenance period	Contributed Assets (07) 5582 9034					
Advice Notes							
A	Consistency with other related approvals The assessment and approval of the operational work the subject of this permit, has been attended to having regard to the conditions of COM/2020/262 dated 30 April 2021. Should any change to any of these approvals be sought and achieved, consideration by the applicant should also be had to the consequences on the related approvals (and the potential need to make subsequent changes to these related approvals).						
B	Compliance with conditions Once this development approval takes effect, the conditions attach to the land and are applicable in perpetuity. It is a development offence to contravene a development approval, including any of its conditions.						
C	Indigenous cultural heritage legislation and duty of care requirement The <i>Aboriginal Cultural Heritage Act 2003</i> (' ACHA ') is administered by the Department of Aboriginal and Torres Strait Islander and Multicultural Affairs (DATSIMA). The ACHA establishes a duty of care to take all reasonable and practicable measures to ensure any activity does not harm Aboriginal cultural heritage. This duty of care: a Is not negated by the issuing of this development approval; b Applies on all land and water, including freehold land; c Lies with the person or entity conducting an activity; and d If breached, is subject to criminal offence penalties. Those proposing an activity involving surface disturbance beyond that which has already occurred at the proposed site must observe this duty of care. Details of how to fulfil this duty of care are outlined in the duty of care guidelines gazetted with the ACHA. The applicant should contact DATSIMA's Cultural Heritage Coordination Unit on 07 3405 3050 for further information on the responsibilities of developers under the ACHA.						
D	Encroachment of works If any operational works, the subject of this approval encroaches on adjoining land, a letter from the adjoining owner must be submitted to Council consenting to the carrying out of these works.						

E	Applicant responsibilities The applicant is responsible for securing all necessary approvals and tenure, providing statutory notifications and complying with all relevant laws. Nothing in this decision notice alleviates the need for the applicant to comply with all relevant local, State and Commonwealth laws and to ensure appropriate tenure arrangements have been made where the use of/reliance upon land other than that owned by the applicant is involved. Without limiting this obligation, the applicant is responsible for: - a Obtaining all other/further necessary approvals, licences, permits, resource entitlements etc. by whatever name called required by law before the development the subject of this approval can be lawfully commenced and to carry out the activity for its duration; - b Providing any notifications required by law (by way of example only, to notify the administering authority pursuant to the <i>Environment Protection Act 1994</i> of environmental harm being caused/threatened by the activity, and upon becoming aware the premises is being used for a 'notifiable activity'); - c Securing tenure/permission from the relevant owner to use private or public land not owned by the applicant (including for access required by conditions of approval); - d Ensuring the correct siting of structures on the land. An identification survey demonstrating correct siting and setbacks of structures may be requested of the applicant to ensure compliance with this decision notice and applicable codes; - e Providing Council with proof of payment of the Portable Long Service Leave building construction levy (or proof of appropriate exemption) where the value of the Operational Works exceed \$150,000. Acceptable proof of payment is a Q.Leave –Notification and Payment Form approved by the Authority. Proof of payment must be provided before Council can issue a development permit for the Operational works. This is a requirement of section 77(1) of the Building and Construction Industry (Portable Long Service Leave) Act 1991; and - f Making payment of any outstanding Council rates and charges applicable to the development site prior to the lodgement of subdivision plans. - g Obtaining any necessary local government/state approvals where works require the installation of temporary ground anchoring into adjacent Road Reserves. Where ground anchoring is proposed into an adjacent private property, approval from the relevant property owners(s) is required
F	Water usage The use of potable water is not permitted in activities associated with road and pavement construction, the compaction of fill material or dust suppression. The use of recycled water is encouraged, especially where other alternative sources do not exist. Where recycled water is proposed to be used, contact the Water & Waste Recycled Water Management Team. More information is available for viewing on Council's website http://www.goldcoast.qld.gov.au/environment/recycled-water-for-industry-7900.html
G	Fire ant control Northern suburbs of the Gold Coast are within Fire Ant Biosecurity zone 2 and must remain vigilant for the presence of fire ants. Under the Biosecurity Act 2014 individuals and organisations whose activities involve the movement or storage of fire ant carriers have a general biosecurity obligation to take all reasonable steps to ensure they do not spread fire ants. Movement of a fire ant carrier from within the fire ant biosecurity zone may need a biosecurity instrument permit. More information is available on the Department of Agriculture and Fisheries website www.daf.qld.gov.au/plants/weeds-pest-animals-ants/invasive-ants/fire-ants.

H	Works in properties other than the development land Where development works or works required to service the development require access, works or otherwise on land that is not part of the development approval, the applicant is solely responsible for obtaining consent and providing such with the “Application to work on City’s infrastructure”. Council will not become involved in any disputes arising from attempts to obtain neighbouring landowners’ consent and assumes no responsibility for any impacts this has on the development. Council shall not be held responsible for any delays, complications or otherwise related to obtaining consent from neighbouring landowners as this is a civil matter to be resolved between the relevant parties.
I	Development infrastructure Development infrastructure required to be provided in implementing this development approval is non-trunk development infrastructure unless otherwise stated in a condition of the approval
J	Council water and sewer mains to be protected during site works The developer is responsible at all times for ensuring that Council’s water and sewerage infrastructure is protected during construction activities on site. This may require physical protection measures to be put in place during works such as deliveries, moving heavy equipment into and out of the site, or when doing works in close proximity to water and sewer assets. Where Council water and sewer infrastructure is damaged during construction, Council will undertake immediate repairs and any costs associated with these repairs will be charged to the landowner, principle contractor or other relevant party. If further more permanent repairs are required, such as replacement of water and sewer mains, the landowner, principle contractor or other relevant party will first be given an opportunity to complete these works (other approvals may be required), or Council will undertake these works and pass the costs on to the landowner, principle contractor or other relevant party.
K	Works in Transport and Main Roads (TMR) Corridor Approval from the Department of Transport and Main Roads (TMR) is required for any works proposed to be undertaken within a TMR road corridor. Any works within a TMR road corridor must comply with all TMR design requirements (Technical Note 163) and certification by a Registered Professional Engineer of Queensland (RPEQ). <i>Note: Changes made to the drawings may necessitate the submission of a Minor or Other Change development application, in accordance with the Planning Act 2016.</i>
L	Connections and disconnections Any connection / disconnection to the existing water and sewerage networks will be at the applicant’s cost. Prior to the connection / disconnection taking place, the applicant must obtain written approval from Water and Waste. Refer to Water and Sewerage Connections Policy, available on Council’s website http://www.cityofgoldcoast.com.au
M	No open trenching of the road pavement for water connections across / in roadways Conduits must be installed to service the proposed development via trenchless technology the road (open cutting of the road is not permitted) to connect to Council’s potable water supply network. In certain circumstances approval of open trenching of the road may be allowed, subject to Council approval. Refer to Water and Sewerage Connections Policy, available on Council’s website http://www.cityofgoldcoast.com.au

N	Further development permits / compliance permits Further development permits and/or compliance permits from Council are required to facilitate the development of the approved works identified in this decision notice. These include: <table><tr><td>Water and Waste</td></tr><tr><td>Connections / disconnections: Application to work on the City's Infrastructure</td></tr><tr><td>Application for Temporary Road / Footpath Closure to Open Cut Road – CoGC City Assets</td></tr></table> A copy of this decision notice and accompanying stamped drawings / plans must be submitted with any subsequent application identified above.	Water and Waste	Connections / disconnections: Application to work on the City's Infrastructure	Application for Temporary Road / Footpath Closure to Open Cut Road – CoGC City Assets
Water and Waste				
Connections / disconnections: Application to work on the City's Infrastructure				
Application for Temporary Road / Footpath Closure to Open Cut Road – CoGC City Assets				
O	Connections to, alteration or realignment of Council infrastructure Where development works require the connection to, alteration, removal or realignment of Council infrastructure or impact on other public utility infrastructure (e.g. telecommunications, electricity and gas), the applicant must obtain the necessary approvals from the relevant public utility authority prior to works commencing. Connection to, alteration, removal or realignment of Council infrastructure includes (but is not limited to) fire hydrants, water service meters, sewer maintenance hole covers, stormwater drainage infrastructure, reinstatement of maintenance hole covers, stormwater drainage infrastructure, crossovers, footpaths, road pavement, kerb and channel, kerb ramps, medians, traffic islands, road furniture, signage and line-marking.			
P	Operational Works meeting prior to lodgement Council's Water and Waste Development Services team encourage contact to discuss any water and sewer matters of significance prior to the submission of an application for Operational Works. Contact GCWDA@goldcoast.qld.gov.au to arrange a meeting.			
Q	Design, Constructability and Minor change applications The application has been approved based on the information provided by the consultant. Water and Waste are not liable for any design or constructability issues experienced on-site. All necessary steps must be taken prior to construction to validate the information in the designs, including locating services. Should any changes be required to the design to ensure it can be constructed in compliance with relevant engineering standards; a Minor Change application (Section 78 of the <i>Planning Act 2016</i>) must be submitted and approved by Council prior to lodging a request for a Pre-Start meeting.
